Blackboard Mobile Central™

Blackboard Mobile Central is a set of applications that enables education institutions to meet the expectations of current and prospective students, alumni, and staff by delivering a rich set of campus life services and content to BlackBerry® smartphones – all uniquely branded for each institution.

Blackboard Mobile Central Applications

Maps: Access your exact location on GPS enabled BlackBerry smartphones, search for a building and pinpoint its address – all with the touch of a button

Directory: Look up contacts within your school's directory, call and e-mail virtually anyone in your community, and add them directly to your smartphone's address book

Courses: Search for next semester's classes on the fly and easily browse through your school's courses – complete with location, time and even instructor contact information

Athletics: Check schedules, scores, and get real-time scoring updates on your favorite school sports teams in an instant

News: Keep up to date with campus news, including research, student publications, and alumni updates

Events: Find and keep track of a wide range of activities, from concerts and art exhibits to lectures and recreation
